TAPAN K. JENA
Founder

An aficionado in Tiles Industry with over 30+ years of proficiency in multiple vertical like Sales & Marketing, Go to Market Strategy, Manufacturing Operation, logistics, Supply Chain Management, Channel Management and above all an Excellent Team Builder and Motivator for achieving Organizational goals has finally now grasped an Entrepreneurial Hat

INTRODUCTION OF OUR COMPANY

As the name suggests, **SANVT** is a combination of two words '**SAN**' that stands for aggregation of sun, sand and clay, each being a key ingredient in the preparation of tiles and '**VT**' that stands for vitrification, representing strength, durability and aesthetics.

Apart from Tiles Space the name Sanvt also resonates a lot with Sanitaryware as they share the same derivatives and is apt in order to showcase the bond of Sanvt with mother nature. Also the nature inspired series will offer plethora of look and colors which would reflect visual cues that offers an earthy appeal.

Incorporating different textures, carefully chosen to create 'interaction', our 800x1600mm surface effects are inspired by cement, metal, wood, stone, and fabric. Through expert processing, our porcelain stoneware recreates the unique, original character of these materials, naturally and with impact, lending the products a crafted feel.

DESIGN, PATTERN & SHADE VARIATION GUIDE

Current development efforts have made Ceramic tiles to resemble and look authentically identical to natural materials (Stone, Wood, Fabric), and it has become increasingly difficult in many cases, to distinguish between the tow.

Recognising this situation, it is necessary to be informed on the grade of Design & Pattern variation that is expected form these products. as a general reference the Design & Pattern guide below classifies a scale of ranges according to the degree of the variation.

The Classification Is As Follow:

V1 Minimal Variation

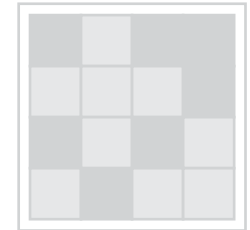

V1 Uniform Appearance

V3 Random Variation

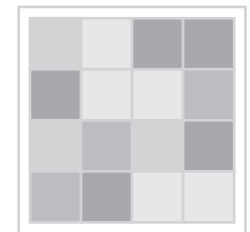

V3 Moderate Variation

V2 Slight Variation

V2 Slight Variation

V4 Substantial Variation

V4 Substantial Variation

High Definition Image

While Laying the tiles please follow the arrow Mark on the back of the tiles For removing the wax from the surface of the tiles please use the soft cotton cloth for rubbing white any boric/talc powder
